DYNAMIC POWER TRANSFER®

NSF

NSF CERTIFIED

SURFACE FINISHING SYSTEM®

SEEING IS BELIEVING
Dynamic Power Transfer delivers evenly distributed power for speedy, high-quality cleaning and brightening on all stainless steel grades and thicknesses.

LEAVE PICKLING PASTE BEHIND FOREVER
Low-toxicity, NSF Certified cleaning solutions, low voltage and easy water-based clean-up combine to protect both the operator and the environment.

IF YOU CAN WELD IT, TIG BRUSH® CAN CLEAN IT
Cleaning tight corners and crevices is a breeze with the TIG Brush, while lead extensions can increase your reach up to 6m.

THE GO-ANYWHERE WELD CLEANING SYSTEM
The robust design of the TIG Brush takes bumps and spills in its stride. On-site or in the factory, it just keeps on performing.

SUPERIOR RESULTS FROM INNOVATIVE DESIGN
Low-cost consumables make the TIG Brush the clear class-leader in value for money. Optimised to support the PROPEL Torch, the TBX-440 will save you money by driving your productivity even further.

TBX-440

Propel Torch sold separately
